I've Come Back

VS1
I was an outcast there beside the road
Leprosy had taken control
Ten of us without a cure, no hope in sight Our death was sure
We heard how Jesus passed this way
He healed the lame, the blind they say
I called out Lord have mercy on me
He said to us go show the priest
Now my healing I see

Key Raise Chorus
I've come back to give Him Glory
I've come back to give Him praise
He changed my life completely when I called upon His name
I stepped out in faith Lord I believe, the impossible I did recieve
Tears of joy, now flood my soul, the day that Jesus came & made me whole

VS 2
 I was hopeless with a heavy load Sin & fear had full control
 Emptiness without a cure, no hope in sight my end was sure
I heard how Jesus can make a way
He will cleanse your heart and restore today
I called out Lord, have mercy on me
He touched my life and set me free
Oh what He did for me.

Key Raise Chorus
I've come back to give Him Glory
I've come back to give Him praise
He changed my life completely when I called upon His name
I stepped out in faith Lord I believe, the impossible I did receive
Tears of joy, now flood my soul, the day that Jesus came & made me whole
Giving Glory to His name the day that Jesus came and made me whole
