

It Is Well

**V1: Now Job was a Godly and upright man
Perfect in all of his ways
The devil thought he could have his soul
If he could take all his possessions away
So he stripped him of all of his riches
Took his children, and left him all alone
But Job said, "My Redeemer liveth"
And it is well with my soul**

**Chorus: It is well (It is well)
With my soul (with my soul)
It is well; it is well with my soul
The storms may come and the wind may blow
But this one thing for sure I know
It is well; it is well
It is well with my soul**

**V2: There's been trouble with this old body
Every since the fall of mankind
There are questions life leaves unanswered
And worries that trouble the mind
But if you belong to Jesus
On this promise you can stand
He will never, never leave you**

**Bridge: Nothing can take you from the Master's hand
The devil may fight and the storms may blow
But he can't take away the peace of my soul**
