

Just How Far You've Gone

Vs1

I remember when the fire was still burning in yourself and the youth group playing and me and you couldn't like to go there was joy such excitement right you did enjoy now you've lost your fresh commitment. You're not sure which way to go.

Chorus

Stop turnaround see how far you walked away.
Stop turnaround. Look how far that you have strayed
You've been going through the motions when to stand and when to pray
You've been kneeling at an altar, but your heart so far away
Stop turn around and see just how far are you gone?

Vs2

The day somebody hurt you, you took a step away
And the anger that you're feeling has made it hard to pray
You took your eyes off Jesus letting others in the way now you're handing out
excuses things are fine and I'm OK

Chorus

Bridge

Stop turnaround the Savior gently calling
Stop turnaround the Savior gently calling

You've been going through the motions of when to stand and when to pray
You've been kneeling at an altar, but your heart so far away
stop turn around and see just how far you've gone
