

Would You Wake Up

**V1:It happened so slowly; just a step at a time
The wrong kind-of music; the wrong friends by your side
There was no time for church and no time to pray
The coming of the Lord seemed so very far away**

**Chorus: Would you wake up, and see that you're lost
You've drifted away from the blood of the cross
Satan has you blinded; he has you deceived
Would you wake up and fall to your knees**

**V2:Oh please turn around; time is running out
I know He'll accept you without a doubt
Give your life back to God; let Him have control
Surrender all to Jesus, your heart, your mind, and soul**
